The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol  $\rightarrow$  (meaning "CONTINUED"), or the symbol  $\nabla$  (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

## SUGGESTIONS

TO INDIVIDUALS WHO SEE OR HEAR OF ACTS OF

### CRUELTY TO ANIMALS.

As a general rule, the eye-witness, or a person informed of any act of cruelty to any animal, should furnish the Inspector of this Society, as soon as possible, with full and precise particulars of the act. That officer will institute the proper inquiries, and with sufficient evidence, conduct the prosecution without expense to the witness or complainant, and without his assistance, unless the latter is necessary to the conviction of the offender. (The names of persons and letters supplying information are kept STRICTLY PRIVATE AND CONFIDENTIAL when secrecy is enjoined.)

In all cases persons are requested to obtain the NAME and ADDRESS of the offender, (and his NUMBER also, if the driver of a vehicle plying for hire.) The following excellent directions given by the Royal Society, London, should also be pursued: "Make a note of the time when, and the place where, the offence was committed. If for driving a horse or other animal with galled neck or shoulders, or other wounds, note the size and situation of such wounds, and especially whether they are raw, discharging, or in contact with the harness; if for flogging or beating, note the number of blows, and on what part of the body inflicted, and the effect, if any, on the skin of the animal; if for lameness, ascertain PARTICULARLY whether or not there is suffering, as lameness is not always an indication of pain; if for weakness or infirmity, take care to have good evidence of the bodily condition, age, and incapacity of the animal, and the labor extracted from it; if for overloading, it is indispensable to show painful distress of the animals, e.g., trembling, falling, unusual perspiration or exhaustion, or to show violence on the part of the driver; if for mutilation or

any other torture, observe minutely and take down in writing the precise character of the same in detail. It is important also to remember the exact words of accused when stopped, which frequently amount to an admission of guilt. In every case, if possible, obtain the name and address of a respectable witness willing to give evidence. If unwilling, such witness can be summoned to give evidence."

It is sometimes advisable that the eye witness of an act of cruelty should give the offender at once into the custody of a policeman or constable. This summary method should be adopted only when the case is one of gross and undoubted cruelty, and when the offender is not a resident in the place, and will not give his name and address, or when, in the case of a resident or non-resident, there is reason to believe that he is not giving these truthfully or that he will evade a summons or will abscond. In any of these cases the eye-witness of an act of cruelty may direct the attention of a policeman or constable to the offence and request the latter to do his duty.

It is earnestly hoped that the personal inconveniences arising out of proceedings to protect animals from the outrages of cruel persons will not deter friends of humanity from cooperating with the officers in their efforts to promote the object of the Society.

The Society would impress upon master carters, coal and wood merchants, and others, the importance of not employing young lads, under the age of fourteen years as drivers of loaded horses, both from their inability to assist the animal when backing or on hilly places, and the thoughtlessness natural to youth, which frequently leads to racing the horses and using the whip unnecessarily.

Attention is also called to the following existing cruelties, pointed out by the American Humane Association of Chicago :

Animals in freezing and starving condition, in exposed localities, in the winter season.

Animals so cruelly crowded, trampled, starved and kept without water, when transported long distances by rail to market, as to make their meat unfit for food.

Horses compelled to endure excruciating torture by the over-check and other high check-reins, through the ignorance and pride of thoughtless drivers.

Dogs and cats driven to desperation and madness from want of water.

Horses ruined in health and limb through being over-loaded, lack of food and improper feeding.

Old, galled, crippled horses ill-fed, over-loaded, and generally abused by hard masters.

Calves with feet tied and tortured, while being transported long distances in distressed position, over rough roads, by butchers and others.

Pigeons wantonly wounded, mutilated and allowed to linger hours before death comes to their relief, at shooting tournaments.

Horses left standing in exposed positions, through severe storms, without covering.

Beautiful song and useful birds needlessly slaughtered by men and boys for sport.

Insects, birds and animals, of various kinds, cruelly put to death by thoughtless persons, when a little more care would make death less painful.

The cruelty and savage instinct aroused by pugilism, cock and dog fighting.

Every city, village and country town should be liberally supplied with drinking fountains for animals, and they should be so constructed that even the smallest dogs can drink from them. No gift to a people confers a greater pleasure than a fountain, and that person who turns aside a stream from the field and gives a watering trough to the roadside, or provides a fountain, at which man and beast can drink pure water, is truly a public benefactor.

SEC. 13.—(1) The Governor-in-Council may order a compensation to be paid to the owners of animals slaughtered under the provisions of this Act, and whenever the animal slaughtered was affected by infectious or contagious disease, the compensation shall be one-third of the value of the animal before it became so affected; but shall not, in any case, exceed twenty dollars; in every other case the compensation to be three-fourths of the value of the animal, but shall not, in any case, exceed fifty dollars; and in any case of thoroughbred pedigree animals two-thirds of the value of the animal, not to exceed \$150; in all such cases the value of the animal shall be determined by the Minister of Agriculture, or by some person appointed by him.

(2) Such compensation may be withheld in whole or in part whenever the owner or the person having charge of the animal has, in the opinion of the Minister of Agriculture, been guilty, in relation to the animal of an offence against this Act, or whenever the animal, being a foreign one, was, in his judgment, diseased at the time of entering Canada.

lamb so killed or injured proceeds against the  
owner or keeper of the dog that committed the  
injury, before a Justice of the Peace, as pro-  
vided by this Act, and is unable on the convic-  
tion of the offender, to levy the amount ordered  
to be paid, for want of sufficient distress to levy  
the same, then the Council of the Municipality  
in which the offender resided at the time of the

injury shall order their Treasurer to pay to the aggrieved party the amount ordered to be paid by the Justice under the conviction, saving and excepting the costs of the proceedings before the Justice and before the Council. R. S., c. 194, s. 18.

R. S., c. 194, s. 19.

SEC. 20.—The owner of any sheep or lamb killed or injured while running at large upon any highway or unenclosed land shall have no claim under this Act to obtain compensation from any Municipality. R. S., c. 194, s. 21.

SEC. 21.—If the Council of any County or Union of Counties by By-law decides to dispense with the levy of the aforesaid tax in the Municipalities within its jurisdiction, the owner of any sheep or lamb may, notwithstanding, sue the owner or keeper of any dog or dogs for the damage or injury done by the said dog or dogs to the said sheep or lamb; and the same shall be recovered in the manner provided by Section 15 of this Act. R. S., c. 194, s. 22.

# FIRST ANNUAL REPORT

—OF THE—

## Hamilton Society for Prevention of Cruelty to Animals.

*April 1st, 1888.*

In presenting their First Annual Report for the year ending 31st March, 1888, your Committee beg to review the work of the Society from the time of its organization.

After one or two preliminary meetings the Society was finally organized on 1st April, 1887, and adopted a constitution and appointed officers and an Executive Committee to carry on the work. After some little delay your Committee were at last enabled to commence active work through the kindness of the Police Commissioners in loaning the services of Police-Constable Watson as temporary Inspector. This officer proved himself most efficient, and your Committee endeavored to secure him as permanent Inspector, but, though they sympathized with the work, the Commissioners did not feel justified in granting the request, as it is difficult for the force with its present limited numbers to accomplish the ordinary work that is expected of it. P. C. Watson was presented with a gold headed cane with an appropriate inscription as a mark of appreciation of his services, which extended over two months. Mr. William Kerley, our present Inspector, was next appointed and has proved himself watchful, energetic and prudent.

It has only been in the worst cases that prosecutions have taken place; in the large majority of instances a warning is first given, the name and address of each individual being taken, and the Inspector keeping track of each case till cured. Thus, a man found working a horse with galled shoulders after being warned that it is unfit for work would at once be proceeded against. Considerable tact is required in looking into reported cases, as it sometimes occurs that a neighbor will lay information against a man for some personal motive of spite.

It might be well to state here that all cases will be carefully looked into when the informer gives proper name and address, which will be regarded as *strictly confidential* when so desired, but anonymous communications (of which some have been received) will not be noticed.

The City Council, on being applied to, cheerfully appropriated the sum of three hundred dollars as an annual grant towards the funds of the Society, on condition that it relinquished its claim to half the fines arising from prosecutions before the City Magistrate. This condition was agreed to, and the Society cannot therefore be accused of prosecuting for the purpose of raising funds.

Nearly all of the livery stable keepers in the city have consented to furnish horse and buggy free of charge where it is necessary to follow cases into the country, and this very generous offer has been made use of on several occasions.

Mr. Adam Brown, M. P., and President of the Society was requested to introduce a bill, during the present session of the Dominion Parliament, to prevent the use of live birds of any kind at shooting tournaments, and is taking up the matter, the bill having passed its first reading. A petition to strengthen his hands was got up under the auspices of the Society and signed by over 500 names, and very many more could have been obtained had time permitted, many citizens expressing satisfaction that the matter was being taken up.

Your Committee beg to draw attention to the cruel and senseless use of the bearing or check-rein, and more especially to *over-checking*, which obliges the horse to hold his head in a constrained and most unnatural position, which is neither graceful or useful, and are of opinion that its use should be discouraged in every possible way.

The Inspector visits Dundas, where the Society have about 25 members, monthly or oftener, if necessary, and a resident honorary agent has lately been appointed there, and it is hoped that like agents may soon be appointed in such places as Waterdown, Burlington, Stoney Creek and Ancaster.

A detailed list of cases is given below, also an abstract of accounts.

It is most desirable for the successful work-  
ing of the Society that the funds be very con-  
siderably increased, and now that the citizens  
see that the Society is in earnest, it is hoped  
they will come forward and assist more generally  
by subscribing their names as members.

A reserve fund of several hundred dollars  
should be created in case the society are at any  
time drawn into legal expense; further funds  
should also be available for developing the  
work.

The erection of drinking fountains has been  
taken up by some societies and been the means  
of doing much good. While your Committee  
feel that they are not financially strong enough  
to undertake this branch of the work, they  
would suggest the propriety of passing a resolu-  
tion at the annual meeting strongly urging the  
City Council to erect several more fountains in  
suitable localities where man and beast alike  
can quench their thirst.

The thanks of the Society are due to the  
sister societies in New York, Buffalo, Pennsyl-  
vania (women's branch), Ossining, Montreal  
and Ottawa for copies of reports and assistance  
in organizing.

Messrs. Edward Martin, Q. C. and S. F.  
Lazier have kindly consented to act as honorary  
counsel, and Dr. J. Craig, V. S., as honorary  
veterinary surgeon.

A By-law was passed by your Committee  
making donors of *ten dollars* (\$10) and upwards  
life members.

Your Committee cannot close this report  
without referring to the very recent death of  
Henry Bergh, of New York, who may with  
truth be called the father of Humane Societies  
on this continent, having for years devoted  
his life to the furtherance of their interests, and  
in his will requested his nephew to carry on the  
good work he had himself so happily and  
successfully inaugurated.

All of which is respectfully submitted.
